# Message from Superintendent Hook

While summer may be a time when our classrooms are quieter, it remains a very busy time for our school district. Our Five-Year Capital Improvement Plan saw great progress this summer with a number of important and much-needed updates including various roof repairs, technology infrastructure upgrades and more. These projects, which were made possible through the permanent improvement levy approved by voters in 2023, serve to make our schools safer, more efficient and better equipped to serve students and the community.

You can learn more about those projects and several other important back-to-school topics by scanning the QR code on the front of this postcard with your smartphone. As we look ahead to what will surely be another wonderful school year, we are refining our focus on academic success with key updates to the district's Strategic Plan and further implementation of our Culture Blueprint. By staying focused on what matters most, educating students, we are making strong efforts to ensure **Every Moment Matters**.
